## NEW SECTION ACCEPTED FOR CIVIL RIGHTS BILL

Subcommittee Agrees to Rewrite Insurance Feature of Soldiers' and Sailors' Measure.

The Senate subcommittee on the Judiciary, in charge of the measure, agreed yesterday to consider an entirely new insurance section in the bill to protect the civil rights of sailors and soldiers. This understanding followed a day of attacks on the validity of the pending section made by senators and representatives of the insurance companies. The new section is to be drawn by the War Department and a committee from the insurance companies.

J. T. McIntosh, general counsel of the New York Life Insurance Company, contended that the section as drawn imposed a contract that the mutual insurance companies could not enter into, because it meant that Congress proposed to take property from one man without compensation and give it to another. He predicted that its enactment would mean the failure of a number of life insurance companies.

Robert L. Cox of New York, representing the Association of Life Insurance Companies, told the subcommittee that the only fund available to continue the insurance carried by men taken into government service is the policyholders' reserve, and that the insurance payments on policies held by the fighting men would have to come from policyholders not in military service. This, he contended, would violate the insurance contracts.

Maj. Wignam of the Judge Advocate General's office, who was largely instrumental in drawing the bill, suggested that Congress guarantee the companies against losses by reason of suspension of premium payments. This met the approval of Senators Reed and Brandegee, who had opposed the provision, and of Chairman Governmental Affairs, who had proposed a revision along that line would be considered at a conference to be held today.

## APPROVES NATIONAL AIRWAY.

President Wilson Commends Project of Aero Club of America.

NEW YORK, September 22.—The plan of the Aero Club of America for a national airway extending from this city to San Francisco, to be called the "Woodrow Wilson aerial highway," has been approved by the President in a letter to Representative Murray Hulbert of New York, which was made public by the Aero club tonight.

It was announced that the plans for making the map for this highway will be considered immediately by the club's committee on aeronautic maps and landings, and that various governmental, commercial and scientific bodies will be invited to carry out the project as soon as possible.

The aerial highway, it is proposed, in addition to running in a straight line from coast to coast, will have connecting branches extending north and south of the main airway and reaching every important city from Maine to Puget sound.

## BARS EXPORTS OF GOLD.

Japan Acts, Reporting Injury by Like Prohibition by the U. S.

Cablegram to The Evening Star and Chicago Daily News, Copy No. 1017. TOKYO, Japan, September 22.—The finance minister has issued an order prohibiting the export of gold specie and bullion, which the same measure to safeguard the country's interests, injured by a similar prohibition in the United States. The Jiji Shimbun associates as a relief measure that Japan should take a forward step by subscribing on a large scale for foreign bonds. Meanwhile the stock market is panic-stricken. Losers are censuring the government severely for its alleged lack of foresight and diplomatic tact in consenting to China's increased tariff, which seriously affects the cotton industry. The heavy slump in shipbuilding, dock and steel shares continues.

## MUST EAT LESS BREAD.

Italy Forced to Face Unwelcome Situation During Coming Months.

MILAN, Italy, Friday, September 21.—The truth about Italy's bread situation, says the Corriere della Sera, is that this year's harvest produced only 38,000,000 quintals, that 30,000,000 quintals are needed from abroad and that it is impossible to secure more than 20,000,000 quintals. The Italian people, therefore, says the newspaper, will have to live without recriminations and eat less bread.

## Miss Louise Breedin Dies.

SPECIAL DISPATCH TO THE STAR. WINCHESTER, Va., September 22.—Miss Louise Breedin, eighty-four years old, for many years a resident of Washington, died this afternoon at the residence of Mrs. Holmes Conrad. Her parents were Enoch and Lucy P. Breedin of Winchester. She leaves one sister, Miss Frances Breedin of Washington, and one brother, Alfred Breedin, South Carolina. Her funeral will be held here Tuesday afternoon.

## MAJ. C. FRED COOK CALLED INTO SERVICE AT CAMP LEE

Washingtonian Ordered to Cantonment as Division Adjutant of 80th Division.

Veteran of Spanish War and Long an Officer in District National Guard.

MAJ. C. FRED COOK.

Another Washingtonian with a long record in the District National Guard has been called into the federal military service.

Maj. C. Fred Cook, National Army, is now at Camp Lee, Petersburg, Va., having reported, in compliance with orders from the Secretary of War, as assistant to the division adjutant of the 80th Division.

Entering the National Guard July 27, 1892, Maj. Cook served as captain of the Morton Cadets, at one time the champion drill organization of the United States, and then as battalion quartermaster and as battalion adjutant. He was commissioned captain and aid-de-camp on the staff of the commanding general, District of Columbia Militia, December 14, 1897, holding that commission until the reorganization of the National Guard, in July, 1906, when he was promoted to be major in the newly created adjutant general's department. When Gen. Harries retired Maj. Cook was prominently mentioned for appointment as his successor.

On his own application, Maj. Cook was transferred to the retired list of the guard about a year ago, being commissioned by the President a lieutenant colonel, the increased rank being due to "especially meritorious service." During most of the time while an aid

## SHIP STRIKE NEAR END.

Officials Here Encouraged by Offer to Accept Temporary Agreement.

Shipping board officials yesterday felt encouraged that construction of government ships at San Francisco would not be delayed much longer by the strike of iron workers there, following receipt of reports that the union men have agreed to return to work if a temporary wage agreement can be reached.

It was felt a temporary settlement should be comparatively easy and that some permanent basis for a uniform wage scale in all Pacific coast ship yards would be developed within a few weeks at the longest.

## RECREATIONS FOR CAMPS.

Building Permits to Y. M. C. A. and Knights of Columbus.

Secretary Baker explained today only the Young Men's Christian Association and the Knights of Columbus have been permitted to erect recreation buildings within camps and cantonments, because it would be physically impossible to build the same privilege to all social, religious and fraternal organizations seeking it.

Both organizations were prepared to continue the recreational work they started on the Mexican border, the secretary said, and are under pledge to serve all soldiers, regardless of religion or creed. The Young Men's Christian Association is affiliated with the Y. M. C. A. in camp work.

Mr. Baker suggested that societies eager to do social and recreational work for soldiers devote themselves to organizing lodge, church and club entertainments in towns near camps.

## Most Substantial Homes in Southeast

Every one of these conveniently arranged homes is splendidly constructed and carefully finished. Concrete streets, curving sidewalks. NO EXTRA ASSESSMENT. Lots 1 1/2 feet wide.

## TWO AIRPLANES KEPT HERE BY ACCIDENTS

Third Machine Returns to Newport News—Five Cars to Fly to New York.

One of the three Italian aeroplanes which made a spectacular flight from Hampton, Va., to Washington yesterday, the Pomilio machine, started back at 4 o'clock, arriving at Langley Field, near Hampton, at 5:55 o'clock.

The other two machines suffered mishaps which prevented their return last evening. The big Caproni biplane, which brought nine persons, broke a wheel and smashed a plane in landing after making an exhibition flight with newspaper men as passengers. The Fiat battle plane, short of gasoline, landed in a marsh on the Virginia side of the Potomac.

Flat Stuck in the Mud.

The Caproni plane probably will return today, but the Fiat could not be extricated from the mud, and will be dismantled and shipped back. Lieut. Baldoli was pilot of the Pomilio machine on its return flight to Langley Field. Lieut. Baldoli, only twenty-one years old, has had two years' service on the Austrian front, and is said to be the most daring of all Italy's aviators.

One Machine Carries 25 Men.

Next week five Italian machines will leave Langley Field for a non-stop

flight to New York. On this trip one of the pilots will drive the great triplane, now at Newport News, which carries twenty-five passengers.

## PEOPLE'S COUNCIL UNDER BAN.

Hartford Police Will Prevent Meetings by Force If Necessary.

HARTFORD, Conn., September 22.—Acting Mayor Walter S. Schutz today announced that no more meetings such as that held last Sunday under the auspices of the Hartford branch of the People's Council of America for Democracy and Peace would be permitted here. He said he had notified the chief of police that such meetings were to be prevented, by force if necessary.

In the list of decisions given out by the Baltimore exemption board strict adherence to the regulations not to consider policemen and medical students within the exempted classes was indicated.

## TO FIX STEEL PRICE SOON.

The President Expects Same Figure for Government and Public.

The price to be paid by the government for steel will be fixed probably within a few days. Members of the war industries board, after a conference yesterday with representatives of the steel industry, put the situation before President Wilson.

The President hopes, it is understood, that steel producers will agree voluntarily to supply their product to the public at the same price obtained by

the government. If this is not done he is ready, it is said, to force passage by Congress of the Pomerene bill, giving the government authority to fix steel and iron prices.

Steel men here included H. H. Perry and James A. Farrell.
